

Project name

Educational University GATeway to enhance innovative E-learning capabilities, resilience and new best practices (EDU-GATE)

Description

The main goal of the project is to contribute to the digital transformation of educational activities at all levels by supporting initiatives for the development of new inclusive digital pedagogical methods and skills for adequate use of digital educational tools aimed at learners, including participants with disabilities.

EDU-GATE project is targeted at:

- Higher Educational Institutions (HEIs);
- Students at HEIs, including disadvantaged students as well as students with special needs;
- Educators, including professors, teachers, and lecturers at HEIs.

Co-funded by the
Erasmus+ Programme
of the European Union

The EDU-GATE project envisages multi-sectoral analyzes and studies of innovative solutions, methods, skills, and best practices in digital education. The analyzes include determining the current state of digital education, with a specific focus on higher education institutions, and contribute to the identification of current and future methodological skills, needs and tools for digital education.

The main activities of the project are related to the development of:

- methodology for creating and providing learning content, knowledge and skills assessment tools;
- innovative and integrated EDU-GATE web platform for online learning that offers multi-level collaboration and resource sharing;
- a digital library with 12 multimedia electronic modules related to using educational videos and interactive platforms, creating online tasks and quizzes, choosing online educational resources, etc.

Project type

international

Project duration

2021 - 2023

Project coordinator

**Luiss Libera Università Internazionale Degli Studi Sociali
Guido Carli, Italy**

Project coordinator

Assoc. Prof. Mariya Monova-Zheleva, PhD

Funding programme

Erasmus+ Programme, Key Action 2: Strategic Partnerships
