

Project name

BLACK SEA CRUISE - Sustainable Small-scale Cruising/ Yachting

Description

The project aims to analyse the state of play and environmental and socio-economic potential for novel small-scale cruising/yachting models, in order to support, through a final set of recommendations, the sustainable development of the activity in the Black Sea region. Partners will engage in structured discussions with a target group of local and regional stakeholders to explore concrete business opportunities in the region and to identify funding avenues and support actions for promoting such models.

Project type

International

Project duration

2021-2022
