

Project name	E-mentoring: a new qualification for continuing education and training (eMentEdu)
Description	<p>2021-1-LV01-KA220-VET-000033122</p> <p>The e-MentEdu project aims to design and develop a new professional qualification to support continuing education and training. Partners will realize an educational package for e-mentoring through personalized learning pathways in an online environment. The e-MentEdu project will integrate into an online environment the various forms of mentoring, such as peer mentoring, group mentoring, and reverse mentoring. The latter consists of mentoring senior persons by younger mentors, usually in technology-related topics. The concrete objectives of the eMentEdu project are:</p> <ol style="list-style-type: none"> 1. Professionalize mentors and help them in developing effective mentoring and networking practices in the digital transition; 2. Leverage digital technologies to give them new job opportunities; 3. Extend the mentoring guidance to a large audience of persons initiating in a professional area or needing to be re-skilled.
