We would like to cordially invite you to consider contributing a paper to the FedCSIS 2014 - a yearly international multi-conference organized by the Polish Information Processing Society (PTI) in technical cooperation with the IEEE Region 8, IEEE Poland Section Computer Society Chapter, IEEE Poland (Gdansk) Section Computer Society Chapter, ACM Special Interest Group on Applied Computing, IEEE-CIS Poland Section Chapter, Asociación de Técnicos de Informática, Committee of Computer Science of the Polish Academy of Sciences, Polish Society for Business Informatics, Polish Chamber of Information Technology and Telecommunications, Polish Chamber of Commerce for High Technology and Eastern Cluster ICT Poland.

Please also forward the announcement to your colleagues and associates who could be interested in it.

The FedCSIS Multiconference consists of Events (conferences, symposia, workshops, special sessions). Each Event may run over any span of time within the conference dates (from half-day to three days). The FedCSIS Events provide a platform for bringing together researchers, practitioners, and academia to present and discuss ideas, challenges and potential solutions on established or emerging topics related to research and practice in computer science and information systems. Since 2012, Proceedings of the FedCSIS conference are indexed in the Thomson Reuters Web of Science.
